

Community obstetrical care providers, by intended site of delivery

The following list is intended to support timely access to appropriate obstetrical care.

Providers are categorized based on scope of practice:

- **Low-risk obstetrical care**
 - Obstetrics family medicine physicians – see list below.
 - Midwives: <https://www.alberta-midwives.ca/midwife-directory>
- **High risk / specialist obstetrical care** (obstetricians, Maternal Fetal Medicine where applicable)

Referral criteria and provider availability may vary. Urgent or emergent obstetrical concerns should continue to be directed to hospital-based services or Labour & Delivery triage.

FAMILY MEDICINE OBSTETRIC REFERRAL (FMOB - LOW RISK) INFORMATION

In the Calgary Zone, our family medicine colleagues offer antenatal, intrapartum, and maternal newborn care at all sites. Some specialize in breastfeeding, mental health, addiction medicine, IUD insertions, and other contraceptive methods.

Vulnerable populations			
	Phone	Fax	Information
The Alex Youth Pre/Post Natal Program	403-520-6270	403-520-6276	This service is provided to patients who are less than 25 years old and require access to extra social services, parenting groups, prenatal classes, resources etc. The physicians located at this clinic can deliver at any of the hospitals.
CUPS	403-221-8790	403-221-8785	This program is available for low-income individuals and families in Calgary and aims to help them overcome poverty.
Elbow River Healing Lodge	403-955-6600	403-955-6601	This program provides low risk prenatal care for Indigenous women in a culturally sensitive and multidisciplinary environment. This includes traditional wellness counsellors.
Calgary Refugee Health Clinic	403-569-7251	403-569-2725	This program is for patients who are conventional refugees or refugee claimants and are having difficulty accessing regular prenatal care.

CALGARY CORRIDOR OBSTETRICS AND MFM HIGH RISK REFERRAL INFORMATION

In the Calgary corridor, obstetricians provide comprehensive antenatal, intrapartum and postpartum maternal care, with deliveries occurring at all acute-care sites. Community primary care providers are expected to refer pregnant patients directly to a prenatal care provider for ongoing obstetrical care. Referrals should be made as early as possible following confirmation of a viable intrauterine pregnancy on ultrasound, as obstetrical practices have finite capacity and may decline late referrals due to volume constraints. Please note that South Health Campus operates with a fixed delivery volume cap due to unique bed-capacity limitations. Early referrals are strongly encouraged, as practices are more likely to accept patients earlier in gestation.

Maternal Fetal Medicine accepts direct referrals from community primary care providers in the Calgary Corridor for the following indications:

- Monochorionic monoamniotic twins
- ALL triplets and higher order multiples
- Pre-pregnancy Organ Transplant Recipients

Labour & Delivery triage and hospital obstetrical units are **not outpatient referral services** and do not accept referrals for routine antenatal or longitudinal obstetrical care.

Department of Obstetrics & Gynecology: Referral information obstetrics
