

NEW & IMPROVED

Specialist Link
Connecting Primary & Specialty Care

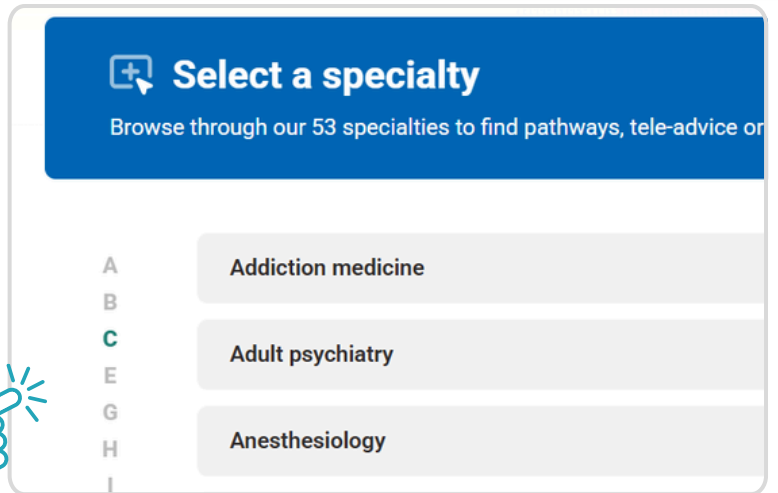

We've updated Specialist Link to make it easier to access specialties, tele-advice services and pathways quickly. Here's what's changed and how to navigate the new layout.

Specialties listed A-Z on the homepage

All specialties are now listed alphabetically on the homepage, with tele-advice, pathways and resources grouped in one place.

Browse by selecting a specialty, or jump to a specific letter using the A-Z index on the left-hand side of the page.

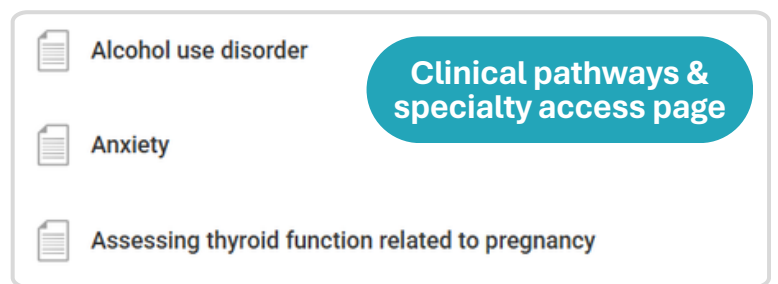

Enhanced search function

The enhanced search function helps you quickly locate pathways, resources and specialties by searching keywords directly from the homepage.

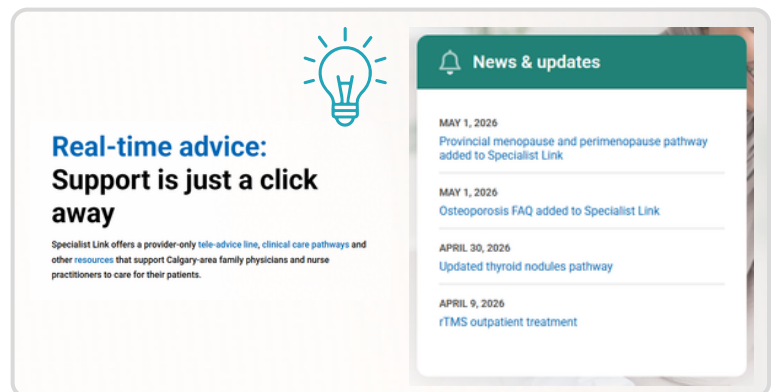

Improved pathways navigation

The clinical pathways & specialty access page is now organized alphabetically so you can easily find what you're looking for.

Stay up to date

Find the latest news & updates right from the homepage.

All existing Specialist Link pages remain available and can be accessed as usual, including:

News & webinars

Indigenous resource hub

By the numbers

and more!

We want to hear from you!
